The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.

Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for THEIR OWN BENEFIT and for the protection of their children.

Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

(Late Butterfield & Averell's.)

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of

Wines, Liquors & Cigars,

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM-HOUSE; therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefore adopted the

ONE PRICE SYSTEM,

and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.

Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

OFFICIAL PAPER OF THE CITY.

FROM OUR N. YORK CORRESPONDENT.

NEW YORK, Monday, Jan. 5, 1852.

The sleigh bells ringing in my ears, and the white snow all around, fitly enough introduce the new year! And what a portentous year it is like to be! The giant crime of the age—the usurpation of Louis Napoleon—cannot prosper, and its power cannot outlast, surely, the year that is opened. It is impossible that France shall consent to see her struggles of three generations thus rendered fruitless—and it seems impossible, too, that England should look on approvingly, while Despotism is combining anew, and with more formidable unity than ever, to encircle the Continent in one fold of absolute power, and as to the principles, alike, and the Commerce of free countries, of absolute exclusion. If England acknowledges the usurpation of Napoleon, it annihilates all the fruits of Waterloo—and renders the blood shed, and the lives then offered up, in vindication of free principles and free commerce—a wanton and vain sacrifice. And in truth, this dawning imperialism in France, is far more dangerous both to England and America, than that of the great Napoleon—for he was held in check and combatted by the other despots of Europe, as an adventurer, who had no legitimate sanction to his power. But now these Despots are less dainty in their fellowship—and so that if chance leaders, like Napoleon, will only thoroughly espouse their cause, and effectually trample upon the people and popular rights—they adopt him into the family of the legitimates, and encircle him with their favor and their forces. Austria, Russia, Prussia, the Pope, and Naples—bloody—ferocious Naples—bid all Hail! to the new Liberticide who has seized upon France—and they will go hand and hand with him to shut out from the Continent dangerous opinions, such as are current in this country and in England, of human rights—and the products of the countries where those rights are enjoyed—and which exist in security where free and secure industry multiplies those products. Freedom thus will be struck at at once in its theory and in its products—and a close Continental system, upheld by millions of bayonets from the frozen haven round Northern and Western Europe, till it meets again at the mouth of the Dardanelles—will punish the Commerce, and repel the doctrines of all Constitutional States. Such, if the monstrous French usurpation could stand, would be the result within a year; and in view of the possibility of that result, it is meet for the United States to consider well the course before us. I have a conviction that the time foreseen by the sagacious mind of Canning, long years ago, of a *war of opinion*, is now at hand—and in that war we cannot be neutral, if we would—and should not be, if we could. The time is approaching—if not come—when we should say to England—let us be friends—let us lay aside all petty resentments and petty projects of Mosquito King aggrandizements—and looking forward at the menacing aspect of Continental affairs—let us cordially act together, in defence of our common birth-right of representative institutions, of civil and religious freedom. The giants of the Land are to be leagued together—let the giants of the Sea make Common Cause—and let the battle of Freedom, of Human rights and Human hopes—be fought on the Atlantic. In such a cause, Europe in arms, cannot resist the Anglo-Norman race—the inheritors of the glorious English tongue—wherever it is the home tongue—the descendants of the men of Cressy and Agincourt—of Bunker Hill and Monmouth Court House—fighting with allied hearts and arms, cannot be beaten. It is time to think of this—to look the future full in the face, and to take the responsibilities which such a look imposes. The Sea is the domain of Freedom, and we ought at once to strengthen ourselves on the Sea.

PRINTING THE GOVERNOR'S MESSAGE.—Quite an animated debate took place in the Assembly on Friday, upon the following resolution offered by Mr. HACKETT, of Rock County:

Resolved, That two thousand copies of the Governor's message be printed in the English, eight hundred in the German, and five hundred in the Norwegian languages.

Various amendments were offered to this; providing for printing the Message in French, Dutch, Winnebago, &c., in short, in all the tongues spoken in this State. Finally, Col. BOTKIN moved to refer the whole subject to a select Committee of three and sustained his motion thus:

> Mr. Botkin said he was opposed to printing these messages in any language but the English. It was well known that the charges were enormous for translation—furnishing copy, &c., and the same items of binding, stiching and folding would astonish the gentlemen present, could they be correctly stated. Part of this might be avoided by purchasing the newspapers containing them, perhaps, but of this a committee could judge and after investigation, report to the House. If possible he hoped retrenchment in the expenses might be had.
>
> The amendment was agreed to.
>
> The Speaker appointed Messrs. Botkin, Lewis, and Staats, as such committee.

It strikes us that there is less necessity for directing extra copies of the Message to be printed, than of any other document. The Governor's Message is published, of course, *in every paper* in the State, and in all the languages in which papers are printed here. There are between forty and fifty newspapers published in Wisconsin and their aggregate circulation must exceed fifty thousand copies.

SEVERAL RICHMONDS IN THE FIELD.—The eighth of January was the time appointed in several of the States of the Union, for the choice of delegates to the National Democratic Convention. In Pennsylvania, the contest was exceedingly animated, but Mr. BUCHANAN carried the day very decidedly. In New York, the contest was between Gen. Cass and Gov. Marcy; the latter securing, it is said, two-thirds of the Delegates. In the Buffalo District, a resolution, instructing the Delegate chosen to support the nomination of Gen. CASS, was adopted by the strong vote of 58 to 18. The Albany *Atlas*, Barnburner, in chronicling this fact, takes occasion to explain who Gen. Cass is, as follows:

> (Gen. Cass referred to, lives in Michigan, and was run in several of the States for President in 1848.)

The New-Hampshire democratic Convention, by a unanimous vote, expressed its preference for Gen. PIERCE, as a candidate for the Presidency. The Kentuckians declared for Gen. BUTLER. Tennessee expressed no preference.

"CAN THESE DRY BONES LIVE?"—The Association of "the surviving members of the first Constitutional Convention," hold their annual meeting at Madison *this* evening. The *Democrat* says that MOSES M. STRONG is to deliver the address and pathetically adds:

> In these days of retrogression on the subject of Banks and Internal Improvements, it will be good to hear from the fathers of Wisconsin democracy, pure and uncontaminated principles discussed.

The ghost of the old Constitution, it seems, continues to walk the earth; but it has long since ceased to be available as a hobby and is not even fit for a scare-crow.

FRIGHTFUL CATASTROPHE IN SICILY.—Accounts from Malta say—"Reports of the severity of the weather in Sicily have reached us. The loss of life and property has been very great. Near Marsala two water-spouts passed over the island, unroofing houses, and raising men, women and children, and animals, carried them in the vortex to destruction. During this period the rain fell in torrents in Marsala, and hail fell of enormous size. At Castellmare (Suabia, not near Naples) nearly half the town has been destroyed, and upwards of 200 people washed into the sea. Dead bodies, fearfully mutilated and swollen, were seen by my informant."

☞ The New York City Taxes for this year will be $3,500,000—half a million greater than ever before.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, January 17, 1852.

The subordinate officers of the House are as follows:

Appointed by the Chief Clerk—D. Noble Johnson, Assistant; A. V. Fryer, Enrolling; D. Seber, Transcribing, and A. Ferris, Engrossing Clerk.

Appointed by the Sergeant-at-Arms, B. F. Smith, D. L. Thayer, Door-keeper; Geo. Woodward and J. Flowers, Messengers, and G. F. Barker, Fireman. Mr. Thayer is the unfortunate man whose life was so wonderfully preserved, after being blown almost to pieces by the premature discharge of a cannon. His case appealed so strongly to the sympathy of the Sergeant-at-Arms, that it was impossible to resist the applications of his friends for the appointment.

A resolution passed yesterday to furnish the State printer with statistics of the members of the House, and the blank was circulated this morning, to be filled up. The young Autolycus circulated from member to member, asking, like his prototype in the *Winter's Tale*:—

> "Your affairs there? what? with whom? the place of your dwelling, your names, your ages, of what having, breeding, and anything that is fitting to be known—discover!"

Mr. Fyfe, of Sauk Co., is the patriarch of the House, being 57 years of age, and Mr. McKee, of Grant, is the youngest, being only 23. I notice that Mr. Utley of Racine, reports himself at 38, though that can hardly be, as the last year's list stated his age at 77. As one of the "immortal six," however, it may be that he insists on flourishing in immortal youth, and growing younger every day.

Among the petitions in the Assembly this morning was one for a State Lunatic Asylum, and one to authorize a tax in Manitowoc for their harbor. The last was referred to a select committee, Mr. Ricker, Chairman. Mr. Hammond, whig, contests the seat of Mr. Murphy, of Lafayette Co. He claims a majority of 32, if the returns had been properly counted; those from the towns of Kendall and Willow Springs having been thrown out for want of the affidavit of certain election officers being attached to them. It is thought that he will get his seat.

The resolution to invite the resident Clergymen to open the sessions with prayer elicited an interesting debate, and numerous amendments were offered to it. Messrs. Botkin, Donaldson and Conger spoke in favor, the former at some length in an earnest manner. Messrs. Richardson, McKee, and Vanostrand opposed the original resolution by offering amendments. Their opposition was based upon the supposed impropriety of paying for these services out of the Treasury, and not upon any expressed objection to having the service performed. Mr. Utley, free soiler, stated that he was distinctly in favor of furnishing the prayers of the clergy to two parties upon the floor, but did not consider it necessary for the "six." Every man is entitled to his opinion, of course. The resolution finally passed, Ayes 50, Noes 15, Messrs. Averbeck, Barber, Beck, Burgess, Clemmons, Catton, Cramond, Hasse, Knoll, McKee, Mott, Richardson, Ricker, Staats and Weil. Mr. Burnham did not vote.

The principal business of the morning in Assembly was the receipt of a message from the Governor, announcing that he had been cited to appear at Milwaukee on Tuesday next, before Judge Hubbell, and show cause why he should not be compelled to deliver to Levi Blossom the bond given by himself and five others, as sureties for Treasurer Jannsen, and why said Jansen should not be restrained from the discharge of the duties of the office. The Governor states that the bond presented had upon it the names of Levi Blossom for $60,000—W. B. Hibbard, $10,000—D. Chandler, $10,000—T. P. Williams, $10,000—P. C. Reed, $10,000—and S. B. Davis for $20,000—total $120,000; this he refused to receive. Messrs. F. J. Dunn, Jno. Larkin, M. M. Cothren, Charles Larabee, D. Upman, and Charles D. Robinson were afterwards added to the bond, and it was thus accepted and the Treasurer sworn in. Mr. Blossom now comes on and claims that the bonds by himself and friends were given by them at the solicitation of the Treasurer, only on the condition that Mr. Alton should be the Clerk in the office. That condition not being complied with, Mr. Blossom demands the return of his bonds, and sues for them. The Governor hinted that, owing to a press of business, he should not be able to obey the summons of the Court. Messrs. Botkin, Lewis and Barber, were appointed as a Committee to consider the Message and report at 2 P. M.

In the afternoon the Committee reported, briefly, that any such understanding as was alleged between the Treasurer and his sureties could not affect the State as to the acceptance of the bonds, since it was a private matter with regard to which the State was not a party—that the proceedings citing the Governor to appear &c., were entirely gratuitous, or in legal parlance, extra-judicial and that the State officers are not called upon to notice them.

The report gave great satisfaction, and, whatever may be the facts of the case as between Mr Blossom and his co-sureties on one side, and the Treasurer on the other, the Governor's firmness in the matter is commended by all parties here.—It is rumored that, on sundry occasions of late, appeals have been made to him on the score of personal friendship, the granting of which would have been improper or, at all events, questionable; to all of which as *Governor* Farwell, he lends a deaf ear. I honor him for it.

Little else was done in the Assembly except to progress with the reference of the matters contained in the Governor's Message. As usual, numerous attempts were made to refer particular subjects to select committees, but thus far the only one so referred is that of Banks.

The reference of the Slave Law and Compromise question to a select committee was refused 25 to 27. A move was made to refer it to the committee on Roads and Bridges, doubtless for the purpose of inspecting the condition of the underground railroad. This was lost, and finally, on motion of Mr. Utley, the subject was referred to the committee on Charitable and Religious Societies. From what I know of the Chairman and some of the members of this committee, I think the Assembly will get an excellent report.

The "sovereigns" met in the Senate Chamber and elected their Governor, Warren Chase. Col. Childs presided with intense gravity of demeanor, and those present enjoyed the frolic highly.—To-night we have the Inaugural. W. H. W.

NEW CHARTER.—This long looked for instrument made its appearance in this morning's *Sentinel*. It should have been published as soon as it was completed, if it is to be submitted to the voice of the people, on Monday next—*Free Democrat.*

The new Charter was completed and reported to the Common Council last week, and by them directed to be published. The sooner it is to be submitted to the voice of the People, after publication (so only that the electors have time to examine it) the better; for its provisions are then fresh in the public minds.

DREADFUL STEAMBOAT ACCIDENT.—A Telegraphic despatch from Savannah, of the 11th instant, states that the steamer Magnolia from Florida, bound to that port, burst her boiler on Friday last at St. Simons island; the explosion was terrific, tearing the boat amidships, completely in pieces; Captain McNelly, the Clerk and thirteen others killed, several others wounded. The boat is a complete wreck.

AMUSEMENTS AT MADISON.—The Madison *Democrat* of Saturday last says that the Theatre there is well-attended and that the performances are greatly relished. It also says that there are sundry "tigers," "groggeries" and similar disreputable establishments about the capital, which are rather more extensively patronized than is consistent with good morals.

APPALLING SHIPWRECK.—The American ship Ticonderoga, on her passage to London, from New York, was totally lost on the 2d of December, on sunken rocks off Corribon Island. The total loss of passengers and crew drowned is reported to be 27.

PUBLIC MEETING.

At a large meeting Saturday, 17th inst., the following resolutions were offered, discussed and unanimously adopted:

Resolved, That we deem the nominations for Superintendents of the Poor, made at a late session of the Board of Supervisors, insufficient and unpracticable, and that with regard to the numerous citizens of German birth in this county, we declare those nominations reckless in the highest degree.

Resolved, That we deem the management of Mr. J. H. Rogers, who, being unacquainted with their language cannot understand the representations of distress and privation of our German poor, and has shown them (our brethren) in some cases, without any help or support, that we deem such management censurable and condemnable.

Resolved, That we deem it highly necessary that the Superintendents of the Poor should make such arrangements as to enable them to understand the representations of our German poor, and that they should make known to the public their offices or their residences.

Resolved, That we deem it an act of justice to grant to the German poor the assistance of German physicians.

Resolved, That a copy of these resolutions be sent to the Chairman of the Board of Supervisors, to Mr. J. H. Rogers, Chairman Board of Superintendents, and to the Common Council of this city, and that the members of the latter are hereby requested to use all their influence to redress the now existing malpractices and defects in the management of the affairs of the poor, and that the just demands of our German citizens be complied with.

Resolved, That the English and German papers of this City are requested to publish the above resolutions.

H. C. BEVERUNG, CHAIRMAN.
HENRY G. POST, Sec'y.

SPIRITS AND SEGARS.—It is said that the Secretary of the Treasury's Reports will show the curious fact that, in the fiscal year '50-'51, the amount of imports,

of brandy, were	$2,124,000
Other spirits	466,000
	$2,590,000
Whilst of segars alone there there were	$2,521,000

ALMOST A FIRE.—The premises, No. 110 East Water street, came near taking fire Monday night, from a wooden ash box; the hot ashes having set fire to the box and the fence against which it stood. Fortunately the flames were discovered and extinguished by the night Police, before they reached the building. But for this timely discovery, the premises would doubtless have been burned down.

I. O. O. F.—The Grand Lodge of I. O. O. F. for the State of Wisconsin, holds its fifth Semi-Annual Session in this city, at Odd Fellow's Hall, Martin's Block, commencing at 7 o'clock this evening. On Friday evening, the 23d inst. the Odd Fellows of our City give their Annual Festival, throwing open their own as well as Gardiner's Hall for the occasion. It will be a brilliant entertainment.

U. S. TREASURY.—On the 22nd of Dec. the Treasurer had subject to draft in all the depositories $12,781,921—of which the assistant Treasurer in Boston held $1,009,612 53; in New York $1,732,209 85; in Philadelphia $1,221,849 40.—In the Philadelphia mint $5,681,000; New Orleans mint $1,160,000;—San Francisco depository $217,903.

THE TREASURER'S BOND.—In the matter of the application of LEVI BLOSSOM Esq., before Judge Hubbell, for an injunction &c., against the Governor and Treasurer, appointed to be heard yesterday, we learn that an order was made by the Judge, directing a writ of Injunction to issue, on the filing of a Bond of security in the penalty of $2000, by L. BLOSSOM.

THE COLD SNAP.—It will be seen by our Telegraphic despatches that the intense cold of Monday, so keenly felt here, prevailed all over the Eastern and Middle States, and doubtless extended far South. As usual, *Franconia*, in New Hampshire, takes the palm for the *coldest* weather, reporting the mercury there, on the 16th, at *thirty-six* degrees *below* zero.

STEAMSHIP GLASGOW.—This fine steamer, on her last trip out, arrived in the Clyde at half-past 10 P. M. on Thursday, the 18th ult. in 12 days and 5 hours from New York; having sailed from her wharf in New York, at noon on the 6th ult. This is the fastest trip ever made across the Atlantic by any screw steamer.

FIRE AT FOND DU LAC.—An endorsement on the way-bill of the Northern stage, Monday night, stated that a fire occurred at Fond du Lac, Monday morning, which burnt six buildings and was still raging. No names or other particulars given. The telegraph lines being down, we could get no details.

P. S. The buildings burnt were the row of wooden stores, six or eight in number, opposite Dr. Darling's New Block, and occupied by Dr. CURRAN, Case & Matterson and others.

TIMELY WARNING.—A Circular has been issued by the Attorney General, by direction of the Governor, notifying delinquent counties to pay up arrearages, and announcing the 2d Monday of February next as the limit of forbearance, after which suits will be commenced without delay.

MOVEMENTS OF KOSSUTH.—KOSSUTH and his suite left Washington on the 12th instant, for Annapolis. He was attended to the cars by the Senate Committee and a large crowd of citizens. From Annapolis KOSSUTH proceeds West, visiting Cincinnati, St. Louis, New Orleans &c.

☞ A suit has been instituted against the New York Herald for an alleged libel of the managers of the American Art Union, in charging them with a misapplication of the funds of the Society.

☞ A Mr. A. J. Armstrong, of Hannibal, Mo., had the comfortable little sum of eleven thousand dollars stolen from his premises, on the night of the 21st December. He offers a reward of one hundred dollars for the apprehension of the thief.

FIRE AT PORT WASHINGTON.—We learn that the Wisconsin House at Port Washington, the principal Hotel, we believe, in the town, was entirely destroyed by fire yesterday morning. No particulars of the loss have yet reached us.

MODERATING.—The weather moderated considerably, yesterday, and towards evening got to be quite comfortable, with a fair promise for more snow, which would be generally acceptable.

☞ William Henderson, Huldah Carman, A. Flemington, Freeman Jones and Michael Prendergast! The above persons will hear of something to their advantage by calling at the P. O.

A HARD HIT.—The Woonsocket Patriot, resolving to hit two birds with one stone, speaking of "Phillip's Fire Annihilator," says that it may probably be able to extinguish "Payne's New Light."

☞ There is good pun, well hidden, in the following, from the Boston Post:

GREAT WANT OF CAPABILITY.—The English Governor's ability at the Cape of Good Hope.

U. S. COURT.—The case of John A. C. Gray et al. vs. J. C. Dowe, occupied the Court all yesterday. It will probably be concluded to-day.

Letters from Mr. Weed—No. 4.

From the Albany Evening Journal.

Boulogne, Dec. 14th.

We left Folkestone at 12 o'clock yesterday in a very finely modelled Steamer (unlike those so long in use here) with the advantage of a pleasant day and a calm sea, which enabled us all to keep the deck watching the receding chalk cliffs of England until the corresponding ones of France were discerned.

As a large share of the World's commerce passes through this Channel, numerous Merchantmen were constantly in sight. But how the face of things, in this respect has changed! Up to the year 1847, England was constantly struggling with some or all the maritime nations of Europe for the supremacy of the sea and in these Straits many of the most sanguinary naval engagements were fought. Blood enough has been shed in this channel to crimson its waters. If the Sea could but give up its spoils what fleets of clumsy, lumbering ships-of-war would rise to the surface?

It is 30 miles from Folkstone to Boulogne.—We ran over it in three hours. In entering this harbor we passed over 150 fishing smacks, each manned with from 12 to 20 Frenchmen, all talking loud and vehemently. The smacks were taking advantage of the tide to get to sea. Boulogne, always extensively engaged in fishing, has increased this traffic largely since she has a railway to Albyville, Amiens and Paris. They take cod, haddock, turbot, and sole, with a fish resembling, though much inferior, the white fish of our lakes, together with herring and sprats. They have, also, mackerel fisheries, but they produce none of "No. 1." The bass and black fish are not taken here. The turbot, to my taste, is not what is claimed for it; but the sole is delicious.

Of the 30,000 inhabitants of Boulogne, 8,000 are English. "It is quite ridiculous," said a sprightly little girl who came to us with her father, "to see what mobs of English one meets in Boulogne."

There are several excellent schools here and many English people, in moderate circumstances, come to educate their children. We made acquaintance with one of this class (Capt. Pagnot, a half-pay officer of the British Navy) and his amiable family, who very kindly showed us Lions and civilities. Many decayed gentlemen also come to nurse their gout and replenish their exchequer; and a still larger number come to avoid the importunities of creditors. It has been a resort, too, from an early period, for needy authors and artists. Le Sage, the author of Gil Blas, and Churchill, the poet, died here; and I believe that Campbell, whose polished lines, like Power's statuary, set criticism at defiance, lived for many years, and finally died here. An old gentleman informed me, also, that Sir Walter Scott, on his way back from Italy, yielded up his great and gifted spirit in Boulogne, tho' I have no such recollection.

The old town of Boulogne is enclosed by a wall built by the Romans. Immense armies have been concentrated here, first by Caligula, then by Henry VIII, and then by Napoleon, that of the latter, in 1803, numbering 180,000, the different divisions commanded by Marshals Davoust, Soult, Nay and Victor. He also had 2100 Boats here, with which he intended to invade England. While here, the army devoted a day's pay from each month to erect a magnificent column, surmounted with a statue of the then first Consul. Marshal Soult laid the corner stone in 1804. But it was unfinished when Napoleon first abdicated, and Louis XVIII. resumed the work, intending it to commemorate the restoration of the Bourbons.—He was also compelled to fly before its completion, and after the revolution of 1830 it was again resumed and finally completed according to the original plan. It is a splendid monument, on the base of which are his reliefs in bronze of the General officers of his army submitting to Bonaparte a plan of the Column, and a group representing the first presentation of the legion of honor, which took place then and here.

We attended service in an English Chapel this morning, three of which are well attended here. Strangers pay a franc each for tickets, without which it would be difficult to pay the incidental expenses.

Russell, the vocalist, has purchased a mansion here with pleasant grounds, as a permanent residence for his family. Having known Mrs. Russell in Albany, we called in the evening and passed an hour agreeably with her. Mr. R. has been and continues successful in his profession. He is now in London.

Paris, Dec. 15th.

We left Boulogne at 10 this morning, and arrived here at 5 P. M. The railway passes for 20 miles along the coast, and then strikes off thro' a fertile and well cultivated country, interspersed, every few miles, with ancient chateaus, with tower and terret, and villas of thatched cottages. The cabbage, turnip and beet crops remain in the ground. The turnips are turned out in furrows as they are wanted by the cattle and sheep. Most of the farms were ploughed and most of the labor was performed by the women. Abundant crops of wheat and hay had evidently been gathered.

The train stopped half an hour at Amiens, which gave us time to take coffee and glance at the old cathedral which was erected in the 13th century, and is one of the noblest edifices in Europe.—Among its sepulchral relics is the head of John the Baptist (as is believed) brought here by the Crusaders. Here, in 1802, the treaty of Amiens was signed by Joseph Bonaparte, now Governor of the Hospital of Invalids, on the part of France, and Lord Cornwallis on the part of England.—Peter the Hermit was here.

Amiens has 50,000 inhabitants. Its railway station and depot is the most graceful structure of the kind I have ever seen.

It is a luxury to travel on such a Railway.—The car designed for eight passengers would not escape with less than twelve on our roads. The feet are warmed by hot water in tanks. The track is so solid and smooth that you scarcely realize that you are moving. But how the road pays its stockholders, or even its expenses, with two trains a day conveying from 50 to 75 passengers, not half of whom go in the first class cars, I cannot conjecture. It may do a large freight business, though we saw but one freight train between Boulogne and Paris.

Paris is tranquil and looks cheerful. Infantry Guards are stationed at the theatres, hotels, &c., and Cavalry patrol the city during the night.—Many strangers have left, and many hotels are quite deserted. At Meurice's, where there is usually 160 to 200 guests, there is now only some 40, and at the Hotel de Ville de Albion, where we lodge, there is but a dozen. John James, with his son, and Dr. H. Townsend, are the only Albanians here.

RAIL ROAD DIFFICULTY.—We are happy to learn that the Rail Road difficulties are in a fair way of amicable adjustment, and that the Board of Directors legally chosen at Waukesha at the annual election will meet with no further opposition in the discharge of their duties. As to the right of the old Board to make a change in the office of President, the following case is strongly in point:

IMPORTANT DECISION—*The right of the Directors of a Railroad Corporation to remove a President for Misconduct in Office.*—An important decision affecting the above question was made by Judge Wells, of the Supreme Judicial Court, at Portland, on Saturday last. The case was that of F. O. J. Smith and others against John A. Poor and others, in which the former claimed to be directors of the York and Cumberland Railroad, and asserted that the defendants had usurped possession of the road and were using it without authority, and they therefore prayed for an injunction against them, and a surrender of the possession of said road to the petitioners. The particulars of this case many of our readers will doubtless remember. Mr. Smith was removed, by vote of the directors, from the office of President of the York and Cumberland Railroad, for procuring an alleged unlawful issue of bonds and putting $20,000 of this issue in circulation.

Notwithstanding his removal, he still claimed to act, and attempted to preside at the annual meeting of the stockholders on the 12th of August last, but was forcibly expelled from the meeting. He has since claimed to have been legally chosen a director with George Odiorne and others, and to have been made President of the new Board, and brought this suit for the possession of the road against the old Board. Judge Wells, in disposing of the motion, said (as we learn from the Portland Advertiser,) that the Judges have examined into the question, and were of opinion that the order of notice would be of no advantage, as the defendants were rightfully in possession of the road, and that the petitioners could take nothing by their motion. This decision puts an end to their controversy, and establishes the right of a Board of Directors to remove their President from office. The question settled may be regarded as a precedent of great practical value in future.—*Boston Journal.*

☞ A letter from London, by the last steamer says:

> The crisis in France has induced many English capitalists to invest their surplus funds, this week, in American stocks. I understand that the Barings, Mr. George Peabody, Messrs. Bell, Son & Co. and other holders of our stocks, have lately had numerous inquiries respecting the condition of different State and City Stocks in the United States.

TOO BAD.—A party of returning Californians belonging in Missouri, were robbed of $989 on board a steamer at Cincinnati, on the 8th.

FIRE AT OMRO.—Day before yesterday, at Omro, the house of Mr. L. O. E. Manning caught fire, while the family were all absent, and was entirely consumed. The citizens early discovered it, broke open the doors, and rescued the major part of the furniture.—*Oshkosh Democrat, 16th.*

Advices have been received at the State Department from London to the 2d inst., to the effect that Mr. Lawrence had obtained from Lord Granville a reply to his letter to Lord Palmerston, in regard to the attack on the Prometheus, by which it was declared that in the present state of information, the conduct of Capt. of the Express was disapproved of, but further intelligence must be received before a formal decision could be rendered.

Mr. Lawrence rejoined and obtained from the British Secretary, a positive assurance that if the full British report should in all essentials correspond with the American representation the action of the Captain should be fully and promptly disavowed.

A copy of that report has been received at Washington, and it confirms substantially the American statement. The affairs may be regarded as settled.

A message will be sent to Congress this morning covering all the correspondence which has passed upon the subject.

KOSSUTH ONLY A SECOND BEST KIND OF MAN.—The New York correspondent of *Fred. Douglas*, (colored) paper says:

> "There is nothing remarkable in the *physique* of Kossuth in ordinary, except that universal or type countenance, which puzzles you with the conviction that he looks like several men whom you are well acquainted with but cannot recall.—This is true of the physical appearance of many great men. But Kossuth inspired, is grand, indeed, beyond ordinary great men. But the fun of it is, that Kossuth, the idol of the American nation, is not a white man. *He is not a Caucasian, and, thank God, he is not an Anglo Saxon.* Put that in your pipe and smoke it! Confessedly the greatest man in Christendom *is not a white man. His complexion is swarthy, between a mulatto and a quadroon.* His form of skull is peculiar. His forehead is neither high nor perpendicular; but the perceptive faculties are full, without projecting. The greatest height of skull is just before the ear; he has not what phrenologists call concentration or self-esteem. But the domestic and home-love faculties he has enormously developed, along with very great breadth of skull between the ears. His nose is so common as to account for the fact, physiognomically, that he did not, *nolens volens*, take the dictatorship and free Hungary and Austria at a blow. Bonaparte or Jackson, in April, 1849, would have done for Francis Joseph & Co. I said he is not a Caucasian. He is by blood a Mongol; and, therefore, according to Ethnography, *belongs to the second best race of mankind.*"

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, January 21, 1852.

The extreme cold of Monday has checked receipts and there were but few loads of produce in market yesterday. The weather has moderated, however, with prospects of snow.

Prices are without change, and quite firm. The roads are in excellent condition all over the State.

St. Louis, Jan 12.—The prospective close of navigation and incessant cold weather which has prevailed for several days, has checked all operations in the market, except for retail sales to the city trade.

In flour, no sales of moment, and market quiet at $3,75@4 for superfine, and $4,50@4,75 for extra city brands. No wheat upon the market. No sales of corn, and in new gunnies we quote at 38@40c for prime lots of yellow and white. Oats are dull at 29@30c. Barley, prime, is held at 60@65c. Prime Timothy hay sells at 55@60c. No sales of pork, and market quiet; holders firm at $12,50 for mess, and other descriptions in proportion. No. 1 lard, in bbls and tierces, 7¾@7¾c.

Hogs.—The price remains about the same as last quoted—$4,75@4,85. We have since heard of the sale of 300 head hogs, to average 210@220 lbs, at $4,75 ℔ 100 lbs.

☞ Wood sold in this city on Thursday, at the rate of $10 a cord. The poor were mostly the purchasers; for being unable to provide, in advance, they had to submit to the grinding exaction!—[Cincinnati Enq.

Hog killing is about closing, says the Wabash Express, of the 7th. A sale or two was made on Monday at $4,10. To-day a good lot of hogs would likely command $4,50, but we suppose all sales are over for the want of hogs. We hear that Messrs. Farrington, McGregor & Warren, and J. D. Early will close up their houses to-morrow.

Hogs.—The number slaughtered in this market last year was estimated at 17,000 head, which will exceed that of the present some 9,064. We hear of a few lots coming in, which will probably close the season. The sales of the last week have not exceeded 300, at $4@5,25.—[Hannibal Journal.

The population of this county at the last census, numbered 3,703—that of this town a trifle over 700. The total number of inhabitants in the county now is not less than 5,000, and of the village full 1000. The statement above, it will be remembered, does not include the entire business of the county, but only that which has found its outlet or inlet at this port. Add to this amount what has been done at Two Rivers, and the result would show an extent of industry and productiveness, in proportion to the amount of population, unequalled by any other county in the State.—*Manitowoc Herald.*

Dr. GEO. B. GREEN, Windsor, Vt.

They have acted as a charm with my friends, Hon. A. C. Dodge, M. L. Martin, H. D. Foster and others, to my knowledge.

REMARKABLE.

AT Mrs.——Soiree on Tuesday evening, there was a young gentleman whose brilliant appearance attracted general attention. His large, dark, expressive eyes were only equalled in beauty by the thick, glorious luxuriance of his hair, which was dark and glossy as the wing of a raven. The eloquence of his aspect in this respect was the more astonishing to parties present, since it was well known that previous to his trip to——, some months before, and from which he had just returned, he was nearly, if not quite bald, in consequence of a long and severe illness, which resulted in nearly plunging him into his grave. Curiosity became at length so strong and universal, that the gentleman was prevailed upon by the fair hostess to explain the mystery, which he did after a few introductory remarks, in the following words:

"Before leaving——," said he, "I provided myself with a few bottles of Johnson's HAIR RESTORATIVE, in hope that the virtues attributed to it might touch my case, and thus preserve me from perpetual baldness. Nor was I disappointed. Ere I had used it a week, my decaying hair ceased falling out; within two months a new crop began to show itself; and in six weeks I could boast of as fine a head of hair as any gentleman of my acquaintance."

"But where can this wonderful article be obtained?" cried his auditors, in a breath.

"Of JOHNSON, the proprietor, 151 East Water Street, and of all respectable druggists. The price is very low—only fifty cents a bottle. Give it a trial, and you will find with me, that while the Hair Restorative is extant, no one need be bald." Jan9

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time," in an awful sense, as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of WISTAR'S BALSAM OF WILD CHERRY. A few weeks, a few days, may make a fatal difference in the progress of CONSUMPTIVE SYMPTOMS.

The chances of success increase greatly with the earliness of treatment. Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases, is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution, our aid may come too late for service.

500 Dollars Reward!

THE repeated attempts which have lately been made to fire buildings and vessels in this City, manifest the existence of an organized gang of wretches, whose detection and conviction requires the strenuous efforts of all well disposed persons, as well as of the public authorities of the City, which it is hoped will not be wanting. As a further stimulant to such exertion, I do hereby offer a reward of *Five Hundred Dollars* for the detection and conviction of any person who has, or shall, wilfully set fire to any building or vessel in this City.

Sec. 5. It shall be the duty of the police to arrest all persons who shall disturb the peace and quiet of the city by brawling, loud talk, quarrelling, fighting or instigating or provoking the same, using profane, obscene or licentious language, or who shall by using insulting, abusive or violent language, attempt to produce a quarrel or contention, or who shall in any street or public place insult any female by the use of any obscene or insulting language, or by any obscene or insulting conduct in the presence of any female, or who shall expose his person in any street or public place in an indecent and improper manner, and at the proper time, to bring such person or persons before the police court, and if upon the hearing of the case such person or persons be found guilty of committing any of the offences hereinbefore enumerated, he or they shall be fined not less than three dollars nor over twenty dollars and costs, and in default of payment of such fine shall be committed to the county jail for not less than two or more than ten days.

Sec. 6. Any such person, if found guilty, shall be fined one hundred dollars, and in default of payment, confined in the county jail sixty days, and shall, moreover, be bound over for trial under the statute and common law.

Sec. 7. Every person engaged in or participating in any riot or mob, or who may be guilty of instigating or encouraging the same, shall be forthwith arrested, and if found guilty, shall be fined fifty dollars and costs, and in default of payment of such fine and costs, shall be imprisoned in the county jail thirty days, and shall also be liable to be bound over, as in the last preceding section.

Sec. 8. Sec. 9. Whenever a fire shall break out in any part of the city during the hours of the night watch, it shall be the duty of any watchman who shall discover the same, to alarm the occupants of the building on fire, and those in the immediate vicinity, if the same may be necessary to apprise them of danger. Such watchman shall then pass rapidly through the beat or division assigned him, and give the alarm by crying FIRE! and also the number of the ward in which the same may be, which cry as also the number of the ward shall be immediately repeated in the same manner by the several watchmen of the city. But any watchman or any other person who shall originate such alarm of fire without good and sufficient cause, shall be fined ten dollars, to be collected on the complaint of any member of the fire department, and it is hereby made the duty of the foreman of any company to prosecute any person guilty of originating such false alarm; but no watchman shall during the hours of his service on the night watch, leave his beat or division, or discontinue his rounds to render assistance at such fire, but shall pursue his duties with renewed dilligence.

Sec. 10. The mayor shall have power to appoint one captain or chief of the police, to hold such office, unless sooner removed by the said mayor, until the first day of April next after such appointment. Such captain shall be possessed of all the powers by this or any other ordinance conferred upon any other member of the police. It shall be his duty to assign to each watchman his respective division and the extent of his beat, and number such beat or division, and to see that each watchman is vigilant and constant in performing his rounds, and that he discharge all his other duties faithfully, for which purpose it shall be the duty of such captain to make the rounds and visit all the respective beats or divisions to which any watchman may be assigned, at least twice during each night watch, once between that hour and morning, and in case he discovers or ascertains by any means whatever, that any watchman is absent from his proper place or is not vigilant or faithful in the discharge of his duty, said captain shall report the same to the mayor and common council without delay.

Sec. 11. In case any fire shall break out during the hours of the night watch, it shall be the duty of such captain to hasten to the same, and assist in removing the goods, furniture or other property, the removal of which may become necessary by such fire, and guard and protect the same from thieves or any person who shall improperly attempt to remove or unnecessarily injure the same, and for the more efficient discharge of such duties, he shall have power to call upon and command any necessary number of by-standers to assist him therein, either by helping to remove such goods, furniture or other property, or by standing as guards or watchmen over such goods' furniture or other property, and prevent the unnecessary or improper removal of the same; and any person so called upon by said captain, who shall refuse or neglect to render such assistance, or who shall not faithfully and efficiently render such assistance, may be immediately arrested, and upon due examination and proof of such refusal or neglect, shall be fined ten dollars and costs; and on neglect or refusal of payment of said fine shall be imprisoned in the county jail six days.

Sec. 12. It shall be the duty of such captain of the police to make a report to the mayor and common council at the end of each month, of the number of arrests that have been made, and of the nature and number of the different offences for which such arrests have been made. He shall also report the names, and the names of the watchmen, and the number of their beat and ward, who have made the several arrests; and for the purposes herein mentioned he shall compel each watchman to make full returns to him at or before the close of each month, of the number of arrests that he has made, and of the nature of the offences for which such arrests have been made.

Sec. 13. Each person appointed as such watchman, or captain of police, as aforesaid, shall, before entering upon the duties of his office, take and subscribe the following oath or affidavit, in substance, to be administed by the clerk of the common council.

City and County of Milwaukee, } ss.

Dated the day of , 185 .

And such officer shall, moreover, give a bond in the sum of two hundred dollars, with one or more sufficient sureties, who shall be approved by the common council; which bond shall be conditioned for the faithful and vigilant discharge of his duties as such police officer, and for a faithful obedience to the ordinances of said city, and to pay over to the proper officer any money he may receive during the term for which he may hold such office; which bond shall be filed in the office of the clerk of the common council.

Sec. 14. Every member of police in said city, is hereby authorized and empowered to command the assistance of any person or bystander, to aid in the execution of the provisions of this ordinance, or of any other ordinance, which the common council may from time to time pass or enact, for the better preservation of peace, and protection of life and property; and any person refusing to aid such police officer, when required so to do, shall be fined twenty dollars and costs, and in default of payment, shall be imprisoned in the county jail ten days. And any person who shall be guilty of resisting the lawful acts of any police officer, or in any manner hindering such officer in the discharge of any of his duties as such police officer, shall be liable to such penalties and punishment as such persons would be liable to, for resisting or hindering any other public officer in the discharge of his official duty.

Sec. 16. The captain of the watch shall be entitled to the sum of fifty dollars per month, and each watchman, the sum of thirty dollars per month, as a compensation for their services, payable out of the general city fund.

Sec. 17. PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

PEPSIN

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE.

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S
BALSAM OF WILD CHERRY,
THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

Pleasant Ridge, Ham'n Co., O., }
September 27, 1850. }

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two week from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

Mr. J. D. Park—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

ST. GEORGE'S BUILDINGS.

ARRANGEMENTS FOR 1851.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office: and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

During the past year our Liverpool House have dispatched, in addition to the above extensive list of packets, the following well known ships, and in order to meet the wants of the emigrating public, they will continue to select such other first class vessels as may be required during the year 1851—viz:

THE ECONOMIST

Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of any articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

Troy Fire Insurance Company
TROY, WALWORTH COUNTY, WIS.

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,…………	960
Whole amount of Property insured,..	$625,651 00
Whole amount of Cash premium,………	5214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,……	4843 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out-buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium not of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and 68 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

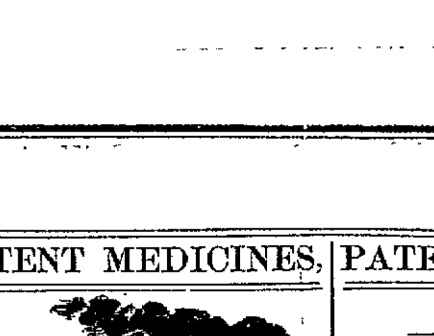
PATENT MEDICINES,



Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

PAIN

Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhœa, bowel complaints, chills and fever, whether it originate from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

The Genuine Dr. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. DR. HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson,

AT THE GERMAN MEDICINE STORE,

120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.

[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25: "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all billious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

GREAT DISCOVERY.
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st.

FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
